

Surviving Abuse, Neglect and Exploitation Committee.
Existing Resources & Services Subcommittee Notes
8/5/2020 12:30

We will now be using the Existing Resources & Services Subcommittee to help us compile a list of Resources throughout Maryland that we can include with our survey.

- Please provide a list that will be used at the end of our Recipient Surveys.
 - List will include numbers/resources + contact information that those individuals can call.
- Want to be wide-ranging. Please include as many counties/regions of Maryland as you can.
- Medical facilities, shelters, food banks, social services, legal services.
- Existing Resources will now be the central source of putting together stakeholders.
- Laura will create a chart for us to enter information on different services across different counties.
- The surveys are going to be reviewed by the IRB research team to determine that the survey is in compliance with the Human Subject Research Laws on August 14.
- May need to do some research because we do not have all regions of MD represented on the Committee.

The SANE Co-chairs send out a request for CARES act funding to request 1.7 million for adults in adult services programs.

- Laura will send out the request we sent to the Task Force.
-
- . Barbara's food bank program sees over 1,800 people a week. This may be a great place to get our survey out in Anne Arundel county.
 - We should share this information with our Food Security Committee.
- Our Survey Monkey survey will allow for up to 1,000 responses.
- Once we are able to send out our surveys, we will start moving towards our mid-term and long-term goals which will likely involve advocating for legislative/policy changes.
